

**CHFR workshop:
Mechanisms of Diastolic Myocardial Dysfunction**

Thursday October 28th 2010 12.00 – 15.30
Oslo University Hospital, Ullevål
Building 25 ("Laboratoriebygget"), Grønt Auditorium

Program

- 12.00 - 12.30** **Lunch (sandwiches)**
- 12.30 - 13.15** **Chair: Ole. M. Sejersted**, IEMR, OUS Ullevål
Invited lecture: Wolfgang Linke, Dept. of Cardiovascular Physiology, Institute of Physiology, Ruhr University Bochum:
The role of the cytoskeleton in diastolic dysfunction.
- 13.15 - 13.45** **Moderator: Ivar Sjaastad**, IEMR, OUS Ullevål
William Louch, IEMR, OUS Ullevål:
Cardiomyocyte mechanisms of diastolic heart failure: role of altered Ca^{2+} homeostasis
- 13.45 - 14.00** **Coffee break**
- 14.00 - 14.30** **Moderator: Geir Øystein Andersen**, Center for Clinical Heart Research and Department of Cardiology, OUS Ullevål; Department of Pharmacology, University of Oslo
Trygve Husebye, Department of Cardiology, OUS Ullevål:
Levosimendan in acute heart failure following myocardial infarction - effects on left ventricular diastolic function.
- 14.30 - 15.00** **Moderator: Otto Smiseth**, Department of Cardiology, OUS Rikshospitalet
Anders Opdahl: Department of Cardiovascular Medicine and Institute for Surgical Research, OUS Rikshospitalet:
Determinants of left ventricular early-diastolic lengthening and untwisting rates
- 15.00 - 15.30** **Moderator: Thor Edvardsen**, Department of Cardiology, OUS Rikshospitalet
Andreas Espinoza, Department of Anaesthesia and Intensive Care Medicine, OUS Rikshospitalet:
Diastolic dysfunction during mild hypothermia in an experimental model

Project presentations are limited to 15 min followed by a 15 min moderated discussion.
